HEMNATH M

Software Engineer | Angular Developer

Email: hemihari15@gmail.com | Phone: 8754696107 | Location: Panruti, Cuddalore, Tamil Nadu, India
Portfolio: hemnath.pages.dev | LinkedIn: www.linkedin.com/in/hemnath-m-a79998377

PROFILE SUMMARY

Software Engineer with **3 years of professional experience** developing enterprise web applications using **Angular, TypeScript, and JavaScript**. Experienced in building **scalable applications, dynamic form-driven architectures, reusable UI components, and responsive user interfaces**. Skilled in **REST API integration and collaborating within Agile teams to deliver maintainable, user-centric solutions**.

TECHNICAL SKILLS

Frontend: Angular (17–20), TypeScript, JavaScript (ES6+), HTML5, CSS3
Forms & UI: JSON Formly, Reactive Forms, Angular Material, AG Grid, Responsive Web Design
APIs: REST API Integration
Database: MongoDB, Firebase Firestore
Tools & DevOps: Git, Bitbucket, Postman, Swagger, FileZilla
Development Practices: Agile/Scrum, Modular Architecture, Reusable Components
Additional Knowledge: React (Basic Knowledge), Python (Learning)

PROFESSIONAL EXPERIENCE

Software Engineer | Kriyatec IT Solutions, Chennai | Oct 2022 – Apr 2025

- Developed and maintained enterprise web applications using Angular and TypeScript.
- Designed dynamic, schema-driven forms using JSON Formly to streamline data entry workflows.
- Built responsive user interfaces with Angular Material and implemented reusable components.
- Implemented offline-first capabilities using IndexedDB to improve application reliability.
- Collaborated with cross-functional teams following Agile/Scrum methodologies.

Technologies: Angular, TypeScript, JSON Formly, Angular Material, IndexedDB, MongoDB

Intern – Software Engineer | Kriyatec IT Systems Pvt. Ltd., Chennai | Apr 2022 – Sep 2022

- Assisted in developing and maintaining Angular-based web applications.
- Contributed to UI enhancements, bug fixes, and feature implementation.
- Collaborated with senior developers to gain hands-on experience in modern web development practices.

Technologies: Angular, JavaScript, HTML, CSS

PROFESSIONAL DEVELOPMENT

Post Graduate Certificate Programme in Applied Data Science & AI | IIT Roorkee | Jan 2026 – Present

- Pursuing advanced studies in Python, Data Science, Machine Learning, Deep Learning, and Generative AI.
- Completing hands-on assignments, capstone projects, and practical applications as part of the curriculum.

PROJECTS

Wedding Craft – Canva-inspired Wedding Invitation Designer (Ongoing)

Tech Stack: Angular 20, TypeScript, HTML5, CSS3

- Developing a drag-and-drop wedding invitation editor inspired by Canva.
- Implementing canvas editing capabilities including text customization, image uploads, resizing, rotation, and layer management.
- Designing reusable components and responsive layouts for seamless desktop and mobile experiences.
- Following modular Angular architecture to support template customization and future scalability.

To-Do Manager – Personal Project

Tech Stack: Angular, Firebase Authentication, Firestore, Cloud Functions

- Built a cloud-based task management application with Firebase Authentication and Firestore.
- Implemented CRUD operations, task categorization, filtering, and real-time synchronization.
- Configured Cloud Functions to send automated email reminders for pending tasks.
- Developed a responsive interface optimized for desktop and mobile devices.

AI Task Manager – Personal Project

Tech Stack: React, TypeScript, Redux Toolkit, Node.js, Express.js, MongoDB, JWT

- Developed a full-stack task management application with JWT-based authentication.
- Implemented task CRUD operations, filtering, status tracking, and dashboard analytics.
- Integrated AI-powered insights to assist users in task prioritization.
- Designed responsive interfaces with protected routes and reusable components.

YouTube Clone – Personal Project

Tech Stack: Angular, TypeScript, HTML5, CSS3

- Developed a YouTube-inspired video streaming interface using Angular.
- Implemented video search, category filtering, and responsive layouts.
- Designed reusable components and optimized application performance.

The Professional Couriers – Courier Management Form Module

Tech Stack: Angular, JSON Formly, AG Grid, TypeScript

- Developed dynamic courier forms supporting Create, Read, Update, and Delete operations.
- Integrated AG Grid with advanced filtering, sorting, and pagination capabilities.
- Built reusable form components following modular Angular architecture.
- Improved maintainability through centralized schema-driven form configurations.

Klassguru – Music School Management System

Tech Stack: Angular, JSON Formly, TypeScript, Responsive Design

- Developed scheduling forms using centralized schema configurations.
- Designed responsive interfaces for staff and students.
- Implemented schedule conflict validation and reusable UI components.
- Enhanced usability through consistent form validation and error handling.

Mandate Management System

Tech Stack: Angular, TypeScript

- Developed banking workflows for validating Aadhaar, UPI, and account details.
- Integrated secure NPCI and NSDL services for mandate verification.
- Implemented client-side validations and error handling to improve data accuracy.
- Collaborated with backend teams to ensure secure and seamless API integration.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering
Sri Ramanujar Engineering College | Anna University | 2017 – 2021
